

Culligan Water®

Soft water shouldn't be hard.

Introducing the Culligan® Aquasential™ Water Softeners & Conditioners.

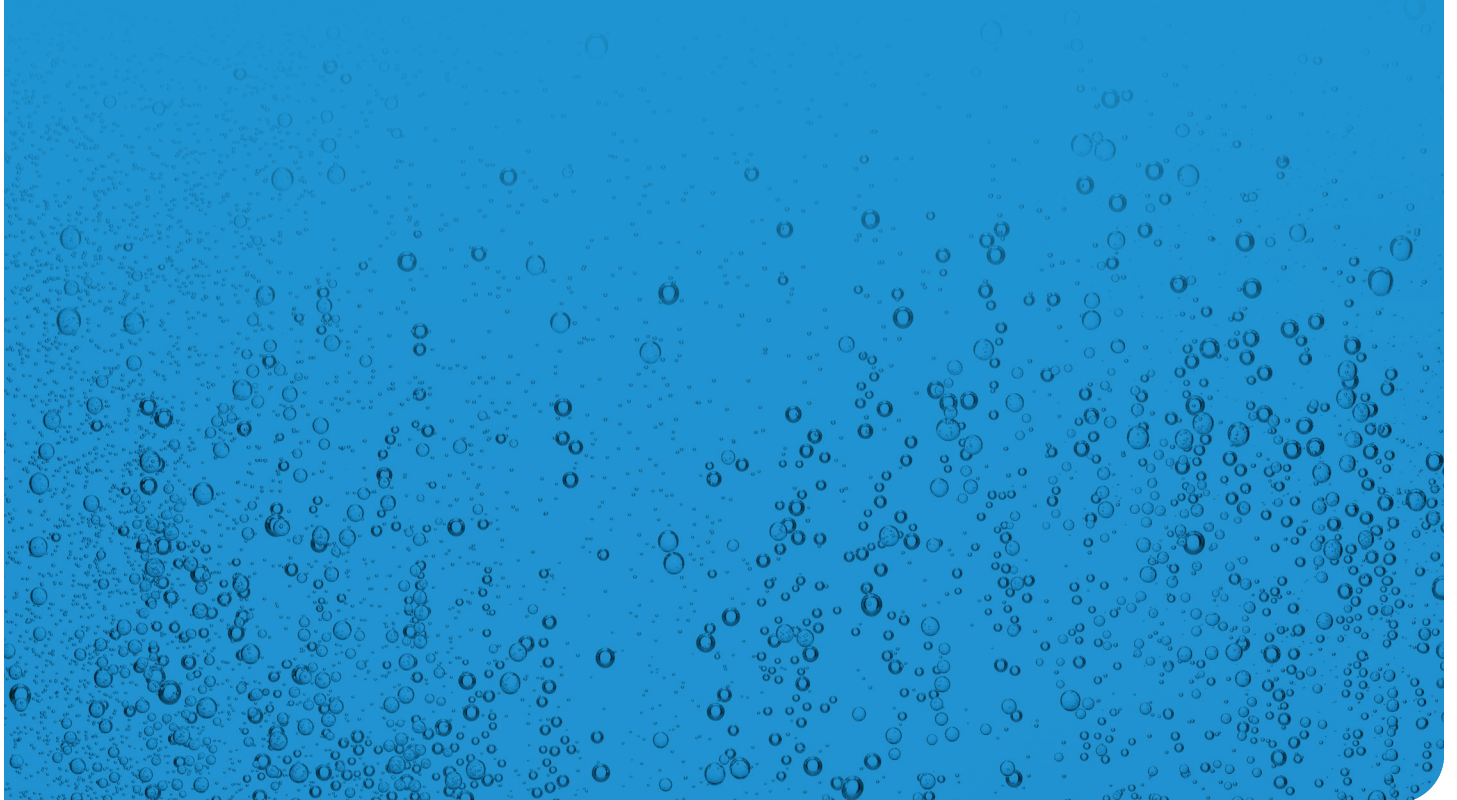

Sparkling dishes. Brighter laundry. Happier homes.

If you have hard water, you may not realize what the problem is, but your home does. That's because your appliances are working harder than they need to, your dishes are covered with a thin film, and your skin and laundry aren't as soft as they should be. And that's just the start.

But the good news is, soft water's not hard to get. With the Aquasential™ Water Softeners and Conditioners, you get a broad range of options that lets you pick the perfect balance of features for the unique needs of your home, family, and water.

With models offering features like WiFi connectivity, on-demand regeneration, or even salt-free conditioning, there's an Aquasential Water Softener or Conditioner that's perfect for your home.

Experience the benefits of soft water.

BETTER LAUNDRY

Vibrant colors, cleaner whites, and fluffier, more absorbent towels.

EASIER CLEANING

Enjoy softer hair and skin, use less soap and shampoo, and spend less time scrubbing bathtubs, fixtures, shower stalls and glass.

SPARKLING DISHES

Washed by hand or in the dishwasher, your glassware comes out spot-free, and your dishes, flatware, pots and pans come out clean and shiny.

LOWER COSTS

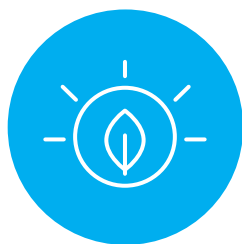

Spend less on soaps, detergents, lotions, electricity and gas for your water heater and dramatically extend the life of your water-using appliances.

Soft water saves money.

Choosing a water softener doesn't just give you better water, it also saves you money every time you use it. That's because a water softener makes all the things you do with water better!

You'll use less soap and detergent, your clothes will last longer, your appliances will run more efficiently, and that's just the start. With an Aquasential™ Water Softener, you get soft water today, and savings every day.

And because all of our products are backed by industry-leading warranties and a 100% Satisfaction Guarantee, plus a network of professionally-trained technicians, you can trust that they'll be ready when you need them.
