

HE SULFUR-CLEER®

High-Efficiency Water Filter

EXPERIENCE THE DIFFERENCE CULLIGAN CAN MAKE.

CULLIGAN® HE SULFUR-CLEER®

High-Efficiency Water Filter

Better Water Means Better Living.

The Sulfur-Cleer was specifically designed to remove two of water's most common problems.

Hydrogen sulfide. Responsible for that rotten egg smell as well as black spots on laundry and fixtures. **Iron.** Responsible for rust stains on your clothes, fixtures and dishes. Often leaves a metallic aftertaste in drinking water. Whether you have one or both, Culligan has effective solutions to these and other water problems you may have. All Culligan filters are customized to handle your specific type of problem water.

LIFE IMPROVEMENTS

BRIGHTER WASH

NO ODOR

CLEAR DRINKING WATER

REDUCES STAINS

Tough on rust stains

If there's iron in your water, you don't need us to tell you how bad a problem it is. Ugly rust stains on your clothes, fixtures and dishes remind you everyday. Culligan's HE Sulfur-Cleer Filter takes care of that. Through an exclusive filtering process, iron is oxidized and then filtered, leaving you with fresh, clean water for bathing, cleaning, and washing.

Stops that rotten egg odor

Hydrogen sulfide. If you have it, you know it. It's what causes that "rotten egg" odor in your water. And it doesn't look any better than it smells. Hydrogen sulfide leaves black stains on your laundry and bathroom fixtures. Even worse, it can cause serious damage to your pipes, leading to costly plumbing repairs. Culligan's HE Sulfur-Cleer Filter reduces these problems using a filtration process that removes hydrogen sulfide from your water. So you won't have to hold your nose every time you turn on the tap.

Save time and money

Say good-bye to the time spent scrubbing away stains with expensive harsh specialty chemical cleansers. Feel confident in putting your favorite shirts in the laundry without fear of ruin from rust stains or black spots. All the while your home's pipes will thank you for removing the impurities that can clog them up and lead to expensive repair.

SYSTEM BENEFITS

- Reduces rotten egg smell
- Prevents rust stains and/or black spots on laundry and fixtures
- Prevents pipe damage from deposit build up

SYSTEM ADVANTAGES

	CULLIGAN HE SULFUR-CLEER	COMPETITORS
Remote by-pass valve	•	
Real time status updates	•	
Interactive remote control	•	

optional Quadra-Hull Tank shown

The world's smartest water filter

Just how smart is the Culligan Sulfur-Clear Filter? Smart enough to know your system is working properly. Sophisticated enough to be controlled remotely. And intelligent enough to monitor water usage.

Smart technology

Smart technology means you get "set it and forget it" convenience. Absolutely no cartridges to change or clean. With an optional modem, the Culligan HE Sulfur-Clear Filter will even alert your Culligan dealer if media needs to be replaced or your filter needs service so the dealer can arrange a service call before you even know there is an issue!

Control your filter from anywhere in the house

Minimize trips to the basement or garage with our optional remote display. It warns of any problems and gives you push-button control over functions and real time status updates.

HEY CULLIGAN MAN!

At Culligan, we've been committed to providing superior water treatment products for over 75 years. Our units offer state-of-the-art electronic controls, innovative valve design, and are tested to the highest standard. Just as important, they're supported by your Culligan Man®, a local water expert. Your Culligan dealer makes your decision easy as we can provide salt delivery, filter and media changes, rentals and financing options.

PRODUCT SPECIFICATIONS

Patented Smart Technology:

- The air compressor is key to the aeration process which oxidizes the dissolved iron and hydrogen sulfide.
- On/off times adjustable to raw water characteristics.
- Automatic bypass valve provides the convenience of bypassing the water filter from the filter itself or the optional remote display.
- Exclusive Culligan Soft-Minder® meter monitors daily water use and provides advanced system diagnostics.
- The easy to read back-lit display with digital clock lets you know your filter is working and warns of system malfunctions.
- Optional remote display makes it possible to control and monitor the filter from virtually anywhere in the home.†
- Optional modem can alert Culligan dealership if filter needs service.

Exclusive reliable design:

- Exclusive, non-corrosive valve. The motorized pistons provide more reliability in problem water than rotary valve systems.
- Sturdy media tank with filament-wound exterior, and smooth, non-permeable inner tank shell.
- Optional Quadra-Hull® media tank provides four layers of protection and has a limited lifetime warranty.

Unique Media Filter

The media in the filter tank acts as an insoluble catalyst to enhance the reaction between the oxygen, iron and hydrogen sulfide.

†Requires 120 VAC
